About Dave Armendaris:

Our 39-year-old friend, husband and father of seven young children, received a diagnosis in April 2005 that he has Acute Lymphoblastic Leukemia. Dave is a loving family man...both to his wife and children, and to his extended family of brothers and sisters. For the past 21 years, Dave has worked at Fairfax Auto Body. His wife, Elsa, runs a daycare out of their home to help pay the bills. As with so many Americans today, Dave must meet this tragic news without any long or short-term disability coverage. On behalf of Dave and his family and friends, we thank you for your support and prayers.

We hope to count you among our supporters and thank you for your consideration of this request.
